1. Cm9 D  
A flower pushed it's petals through broken twigs and dried up leaves  
A D  
To put it's head where the sun could shine on it  
Cm9 D  
It's roots were strong from melting snow and so now was the time  
A Bm  
To grow and search for light from above  
Cm9 D  
The flower soon will bloom and colors bright will be in sight  
A G D  
Of all of the country side

C1: G A D G  
Spring has come, Bringing new birth  
G A G D  
Of seeds planted yesterday

2. Cm9 D  
A squirrel digs through dirt that's covered up his door  
A D  
And forms a little window so fresh air will come in  
Cm9 D  
Having spent the winter eating nuts within his hut  
A Bm  
It now is time to go and search for food once again

He soon is busy running here and there and everywhere

Preparing for the snow which must come once again

3. Cm9 D  
 A little boy goes walking with his hand within the hand

 Of an old man who means so much to him

 The old man is the young man's Granddad and he's glad  
 A Bm  
 That he can take the boy for a walk in the countryside

 As they walk and talk they see a flower and a squirrel  
 A G D  
 In the sunlight that surrounds them

 Spring has come, Bringing new life  
 G A G D  
 And memories of a job well done  
 G A D G  
 Spring will come, And bring new life  
 G A G D  
 Reflections of work done today
