CLASSIFICATION

- A G F E^m A
1. Geophysicists classify everything
F G F G
Is this Type One, or is it Type Two?
C G F G
Does it ring, or does it sing?
F G F G C
Is it blue, or does it have a clue?
2. The result of ambition or competence?
It can be ugly or it can be beautiful
Based on excuses or with valid reasons
Misunderstandings or understanding
3. Formed with pride or with humility
Bringing out the bitter or the sweet
Passively or with long-suffering
Resulting in times sad or happy
4. Was it uninspired or inspired?
Predestination or an act of faith?
Built in fear or with courage?
Was it dirty or made in purity?
5. Profane or designed with reverence
Disingenuous or formed with sincerity
An indulgence or an act of temperance
With instability or perfect balance
6. Revealing duplicity or integrity
Formed in anxiety or true serenity
By the timid or as an adventure
With conceit or real self-regard
7. As a lie or as the truth
In disbelief or with conviction
Was it indolence or endurance?
Ingratitude or thanksgiving?
8. Creating debt or using savings
By the rich or by the poor
Individually or with cooperation
In misery or in a fullness of joy
9. With criticism or with prayer
Obstinacy or after repentance
An act of doing or an act of being
For the most personal of ends

Travis

- A G F E^m A
10. Relationships start with our classifications
F G F G
Are we seeking power or are we seeking unity?
C G F G
Do we rail or do we respond with gentleness?
F G F G C
Do we condemn or are we long-suffering?
11. Do we pity or do we comfort others?
Are we discontent or do we have patience?
Acting with recrimination or with sympathy
Weak malevolence or strong compassion

FAMILY

- A G F E^m A
12. Families become the basic unit of society
F G F G
Especially when time is set for eternity
C G F G
Unless individuality overcomes unity
F G F G C
Or cohabitation replaces marriage
13. Trials come when barren replaces children
Or when abortion is more important than life
Divorce ends up replacing commitment
With feelings of asylum rather than home

RELIGION

- A G F E^m A
14. Caught in the religion of disbelief or of faith
F G F G
Racked with sin or forgiven with repentance
C G F G
Non-committed or taking on Christ in baptism
F G F G C
Still worldly or guided by The Holy Ghost
15. Do we find ourselves preaching or illustrating?
Following every wind of doctrine or of principles?
Doing evil continually or doing good always?
Are we full of darkness or are we full of light?
16. Do we find ourselves ashamed or meek?
Do we seek justice or give mercy?
Do we mourn or do we provide support?
Are we an agitator or are we a peacemaker?

17. Do we persecute or build others up?
Are we poor in spirit or do we have respect?
Do we relish the impure or are we seeking purity?
In other words are we wicked or righteous?
18. Are we rebellious or do we follow the rules?
Do we judge others or do we forgive?
Are we full of disdain or do we worship God?
Are we capricious or are we full of steadfastness?
19. Refusing to bend the knee or will we sacrifice
Pushing aside doubt and learning to trust
Replacing reviling with praise of the Lord
Turning aside hate and learning to truly love

WORK

20. A G F E^m A
Are we acted upon or do we act?
F G F G
Do we use the ax or do we use the shovel?
C G F G
Are we a taker or are we a giver?
F G F G C
Are we a follower or are we a pioneer?
21. Are we a sloth or are we a worker?
Are we self-centered or conscious of all?
Do we want entitlements or are we producers?
Are we a manager or are we a leader?
22. Is data unused or do we use it?
Is information stored or made into best practices?
Is knowledge archived and available for insight?
Is wisdom hidden or used in daily application?
23. Are we busy cutting down or are we planting?
Do we use things up or do we make new things?
Are we a user or are we a steward?
Are we in regression or creating progress?

ENVIRONMENT

24. A G F E^m A
Environment is created by tectonics and eustatics
F G F G
Building up the land and pushing off the ocean
C G F G
Geological structure and stratigraphy
F G F G C
Defining the valleys and the mountains
25. Geology is the foundation controlling hydrology
The slope impacts access like soils do farming
Plants have a habitat, just as does wildlife
Agriculture expands as forestry improves

26. Erosion destroys while permaculture builds
The metropolis swallows up the city
We choose destroying or creating
Climate change or natural processes

LOCAL POLITICS

- A G F E^m A
27. Changing a mascot bringing back the Redmen
F G F G
Do we want power or do we want representation?
C G F G
Can our leaders control, or should they guide?
F G F G C
Will we have anarchy or will we have community?

NATIONAL POLITICS

- A G F E^m A
27. Am I a democrat or am I a republican?
F G F G
Do I have doubt about ties or is there resolution?
C G F G
Should there be socialism or should it be service?
F G F G C
Am I a traitor or am I a patriot?
28. Are we creating bondage or is it liberty?
Will it lead to a dictatorship or to democracy?
Totalitarian regimes do not allow freedom
Rather domination replaces magnanimity
29. People need to look deep into their soul
And find out who and what they are
Are they on the dole or do they work?
Do they lecture or do they listen?

WORLD POLITICS

- A G F E^m A
30. It comes down to war or to peace
F G F G
Some kind of bondage or independence
C G F G
Slavery to the boss or true liberty
F G F G C
Emphasizing a difference or allowing equality
31. Do we want despotism or are we tolerant?
Do we combat treachery and embrace loyalty?
Do we know our enemy and our friend?
Will it lead to poverty or will it lead to wealth?

UNIVERSAL TYPES

32. A G F E^m A
 Symbols are different from language
 F G F G
 Entropy destroys and levity grows complexity
 C G F G
 There are sinks and there are sources
 F G F G C
 True science and God are the same
33. That which is random has no direction
 That which is physical is not biological
 That which is few seldom becomes legion
 That less organized is to be organized complexity
34. The entropic seldom becomes creative
 The destructive seldom become constructive
 The uniformity seldom becomes complexity
 The uniform seldom becomes diverse
35. There's difference between static and dynamic
 Just like between fixed and adaptable
 And between unchanging and a mutation
 And between instability and stability
36. Hopefully the misfit learns to adapt
 The unfit learns to find fitness
 Though decomposers will not be photosynthetic
 Wastes can be morphed into foods
37. The individual can become co-tenants
 Low numbers of species can become numerous
 Predestination is overcome by evolution
 As the independent becomes interdependent
38. Sickness keeps us from health
 Being alone keeps us from the cooperative
 Being isolated keeps us from being integrated
 Being selfish keeps us from altruism
39. When we insulate, we no longer perceive
 Just as antibiosis is opposite to symbiosis
 We need flowering to have pollination
 And we need failure to find true success
40. We are not the same if we have a difference
 We are not one if we are unfocused
 We are not prepared if we look beyond the mark
 We only face death once we have found life

41. A G F E^m A
 No one is always Type Two or Type One
 F G F G
 Sometimes we grow from One to Two
 C G F G
 Sometimes we fall from Two to One
 F G F G C
 Depending upon the fit of the shoe
