          Am      Bm    C
C:        Castles everywhere
          Am          Bm          C
          Climbing through the air
          Gm   Am  Bb
          Built long ago
          Gm          Am        Bb
          To protect against a foe

          F           G           C           Am
1.        Built with muscle and with tenacity
          F           G                C           Am
          Defending over a million different cities
          F           G           C                Am
          Mostly in Europe from the Middle Ages
          F                  G                          Am
          Castles and their ruins remind us of ancient sages

          F                  G                    C              Am
2.        Schlosshotel, or, in honor of her husband, Friedrichshof Palace
          F                  G              C                      Am
          Was built from 1889 to 1894 for Victoria, the German Empress
          F                        G              C                      Am
          Daughter of the English Queen Victoria, living at Kronberg Castle
          F                  G                  Am
          Living a life without working class hassle

          F           G                C           Am
3.        Visiting a rebuilt Roman Fort at Saalburg
          F              G                   C       Am
          Going to the Cinderella Castle at Marburg
          F                  G              C         Am
          Seeing behind the reconstruction at Wurzburg
          F                  G                  Am
          To a castle lived in since 1000 at Eltz Berg

          F                  G              C       Am
4.        We drove along the Main River to Hanau
          F                  G              C                Am
          Looking at the early French baroque Schloss Philippsruhe
          F                  G                    C        Am
          Later we drove to see the Cathedral of Worms, and
          F                  G                          Am
          The wall protecting Luther's 1521 refusal to revoke
